

DERBYSHIRE FESTIVAL 2014

Approved Events and Use of the Festival Logo

The use of the Festival logo is restricted to communications from the Festival Executive, Area Directors, Communications team and Festival Finale committee and for events that are approved in advance.

Such approval requires :

- The Projects Director must be told of the details of the event at the planning stage
- The event should be within and for the province of Derbyshire and should not interfere with any other provinces' efforts
- The event should not clash or detract from any other approved event
- The event should be consistent with Masonic principles and not likely to bring the Province or Festival into disrepute
- The event should be open to all members of the Craft Province of Derbyshire and, where possible, to non-Masonic participants or audience.

If the plans for an event, including the date, are changed the approval must again be confirmed with the Projects Director.

The Projects Director will keep a list of approved events and inform the Director for Communications when approval has been given to an event, so that the event may be publicised and promoted.

Tony Harvey
Director for Communications
